## ABRF Academic Sponsors and Organizational Members: A Strong Foundation for Research Leadership

ABRF benefits from the diversity of its membership community to bring together scientists, technologists, and core facilities leadership from a wide variety of universities and research institutions. Expanding the reach of ABRF through increased institutional engagement improves opportunities for all members to learn from each other, share ideas, and exchange solutions.

ABRF appreciates the generous support of its Academic Sponsors (Organizational Members), groups that have invested in ABRF and the professional development of their core facilities personnel:

Click on the logos below to learn more about the services and capabilities of the Core Facilities at these diverse institutions.

To view the ABRF sponsorship page, [click here](#).

ABRF now offers new [Organizational Membership](#) options that enable institutions to include **all** of their Core Facilities personnel as ABRF members. For those that organize their Core Facilities centrally or by department, the new ABRF **Organizational** and **Group** memberships provide new ways to support professional development for core technologists and scientists.

If your institution would like to do more to support the professional development for core facilities personnel through ABRF Membership, please contact the [ABRF Membership Committee](#) or visit the ABRF [web site](#).

Thank you for your continued participation in ABRF.

### **ABRF Membership Committee**

[Frances Weis-Garcia](#), *Chair* - Memorial Sloan Kettering Cancer Center

[Sara Bowen](#) - Dignity Health

[Kimberly Dahlman](#) - Vanderbilt University Medical Center

[Melodi Jayne](#) - University of Oregon
